EXHIBIT 2.3

1/28/2008

Kirk,

How about Friday Nov.7 from 12 - 4 ? Let me know if that works for you and I will book it with the rest of the team.

Thanks,
Mala

Glen,

Sounds good. What do you suggest for time slots? Start at 1:00pm, schedule an hour each (to be safe), done by 5:00pm?

Thanks,

-kirk

Hi Kirk,

This week is a bad time for our team, since we are working on our final code promotion prior to our beta trial. That promo is scheduled to be complete by Monday, so how about if we aim for meetings on Thursday of next week (i.e., Nov 6th)? Meeting maker shows most of us (except Mala who tends to have meetings all day every day :-)) are free most of that day.

Glen.

This is a mass emailing because we have a large overlap for the four inventions that I ll be handling.

I d like to set up a time to meet with each group of inventors to talk about the inventions. If you can email me with times that you can meet either Thursday or Friday this week or sometime next week, I can hopefully match the open time slots with everyone that is interested in attending. The inventions and inventors are:

- 1) 375344 Software change modeling for networking devices Badari Kakumani, Glen Darling, Matthew Balint
- 2) 375352 Dynamic installation and activation of SW packages in a distributed networking device Glen Darling, Matthew Balint, John Fitzgerald, Douglas Wooff
- 3) 375358 Development and build environment for packaged SW delivery - Badari Kakumani, Glen Darling, Matthew Balint, Mala Devlin
- 4) 375364 Software loading and initialization in a distributed network device Douglas Wooff, Nobushige Akiya, Matthew Balint

Thanks!
